Note: Instructions below are based on the user facing the pump, with the cord on the left side and the capacitor on the right side.

1. Clamp ring on fan, #36 (22-84-0030), must face in towards motor.
2. Circular grooves on valve plate assembly, #30 (14-46-0055), will face down toward connecting rod assembly, #22 (44-94-0025), Valve on top side should be closer to cord side than capacitor side.
3. The letter "E" on the head, #28 (43-64-0135), should be on the cord side of the pump for proper orientation.
